

Date: 01-12-2021

Feedback of various stakeholders on curriculum

The feedback on curriculum was conducted and collected during 23/08/2021 to 01/12/2021 from various stake holders viz. Students, teachers, employers and Alumni for the purpose of continuous improvement in the curriculum design. The main purpose of this feedback is to collect the perception from various stake holders to fill the gap in the existing curriculum and to enrich the curriculum in order to meet the requirement of employer's such as pharmaceutical Industries, research and higher education institutions.

The collective feedback data from the stakeholder will be analyzed and the consolidated report will be communicated to the principal and academic council for possible incorporation in the curriculum.

Following is the summary of feedback obtained from the stakeholders.

1. There should be more add on courses and hands on training for the students
2. The curriculum must include more of practical based tools which is required in the current industry.
3. The curriculum should focus on the pharmaceutical manufacturing skill and also to train the students in various other domains like analytics, marketing, digital marketing, designing etc.
4. More industrial based and R&D based training should be given to everyone. Communication skills and soft skills should be taught at several levels.
5. Value addition courses to motivate the students towards research and technical skills.
6. Student must be trained towards competitive exams.
7. The practical weightage should be increase and some important chapters like NMR and MASS spectrometry should be included.
8. Practicals should be included for subjects like Biopharmaceutics, NDDS & Cosmetic science. The syllabus should be evenly distributed for odd & even semester in pharmaceutics.
9. Syllabus can be focused towards current industry requirements.
