

<p>Incubation Unit: Integrated Drug Discovery Center</p>	<p>In-Charge: Gurubasavaraja Swamy PM</p>
<p>Equipment's available</p>	<p>Uses/Experiments conducted</p>
<ol style="list-style-type: none"> 1. Flash Chromatography 2. Rotary flash evaporator 3. Fuming hood 4. UV & fluorescence chamber 5. Column Chromatography 	<ol style="list-style-type: none"> 1. Small scale and bulk synthesis of small molecules, analogs, natural products 3. Synthesis of intermediates to support on-going medicinal chemistry programs 4. Final product/intermediates, well-characterized using our analytical laboratory 5. Multi-step stereo selective synthesis of chiral molecules 6. Chemo enzymatic and resolution techniques for chiral molecules 7. Development of novel synthetic route for lead structures
